### I.C. Distribution of Government Services funds (GSF) to entities

Distribution of Government Services funds (CFDA No. 84.397) to entities:

Total amount of Government Services funds made available to LEAs, IHEs, or other entities for obligation from October 1, 2010 through September 30, 2011 (Funds Made Available):

**\$21,291,840.99**

Provide a list of entities (including state agencies) to which the state has awarded GSF and the total amount of Government Services funds made available to each entity for obligation from October 1, 2010 to September 30, 2011:

Entity Name	Entity ID	Funds Made Available (2010) \$	Funds Made Available\$
ADMINISTRATIVE OFFICE OF THE COURTS	9999999	66,585,555.94	0
DEPARTMENT OF CORRECTIONS	8888888	163,648,221.06	18,454,961
NORTH CAROLINA VIRTUAL PUBLIC SCHOOL	7777777	3,877,768.3	0

## II.A. Uses of Education Stabilization funds by LEAs

Provide a concise narrative of how LEAs in your state have generally used Education Stabilization funds, and the impact that the funds had on elementary and secondary education in your State from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

**North Carolina Elementary and Secondary Public Education Units used approximately 98.13% of all SFSF expenditures on Salaries and Benefits. The rest was expended on Purchased Services (approximately 0.2%), Supplies and Materials (approximately 0.8%) and other expenditure categories.**

Please update for the new timeframe:

**During period 10/1/2010 to 9/30/2011, North Carolina Elementary and Secondary Public Education Units used approximately 97.48% of all SFSF expenditures on Salaries and Benefits. The rest was expended on Purchased Services (approximately 0.19%), Supplies and Materials (approximately 0.22%) and other expenditure categories.**

Estimate the total amount of Education Stabilization funds draw downs that the State made on behalf of LEAs, from October 1, 2010 to September 30, 2011, under the following categories:

Salaries and benefits:	<b>\$327,912,268.00</b>
Contracts for construction, modernization, renovation, or repair projects:	<b>\$0.00</b>
Other:	<b>\$8,482,257.00</b>
Total:	<b>\$336,394,525.00</b>

## II.B. Uses of Education Stabilization funds by public IHEs

Provide a concise narrative of how public IHEs in your State have generally used Education Stabilization funds, and the impact that the funds have had on postsecondary education in your State from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

**The University of North Carolina: Funds for the UNC system were used to cover faculty salaries that would have normally been paid from State funds. If SFSF funds were not available, the General Assembly and the University would have needed to evaluate other alternatives to reach whatever the University's budget amounts were appropriated. North Carolina Community College System: Funds were used to support the May 2009 payroll expenses related to curriculum faculty; curriculum academic administration positions, including directors, deans, and support personnel who support and/or supervise curriculum programs; positions involved in the operations of the college-at-large (excluding the plant operation and executive management), including staff working in human resources, communications, planning, institutional effectiveness; and student services staff, including admissions officer, registrars, counselors, career guidance staff, placement officers, and financial aid administration. Without the additional funds, NC would not have had the cash necessary to meet payroll obligations.**

Please update for the new timeframe:

**The University of North Carolina: Funds for the UNC system were used to cover faculty salaries that would have normally been paid from State funds. If SFSF funds were not available, the General Assembly and the University**

**would have needed to evaluate other alternatives to reach whatever the University's budget amounts were appropriated.**

Estimate the total amount of Education Stabilization funds draw downs that the State made on behalf of public IHEs, from October 1, 2010 to September 30, 2011, under the following categories:

Salaries and benefits:	<b>\$119,220,719.00</b>
Student financial assistance:	<b>\$0.00</b>
Contracts for modernization, renovation, or repair projects:	<b>\$0.00</b>
Other:	<b>\$0.00</b>
Total:	<b>\$119,220,719.00</b>

## **II.C. Uses of Government Services funds by entities**

Provide a concise narrative of how entities in your State (including State agencies) have generally used Government Services funds, and how the funds have affected the State's provision of services from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

**1. The North Carolina Virtual Public School used GSF to fund/retain 74.4 FTE teachers. NCVPS teachers provide instruction to students in 115 LEAs and 36 charter schools (as of spring 2010). 2. The Department of Corrections (DOC) funded/retained 9212.21 FTE positions. These FTE are employed in 84 NC counties. 3. The Administrative Office of the Courts have retained 2501.03 FTE positions using GSF. These FTE serve all 100 counties in NC. 4. The Office of State Budget and Management hired 4 time-limited auditors to conduct compliance and internal control assessments for programs receiving ARRA funds throughout the state. 5. The Office of State Budget and Management used GSF to fund the development of a modernized central budget system. OSBM is currently transitioning to the new Integrated Budget and Management System (IBIS). The legacy system has been in place since 1985. GSF was also used to fund 14.5 FTE under the Office of Economic Recovery and Investment (OERI). OERI provides oversight of ARRA funds and technical assistance to ARRA subrecipients.**

Please update for the new timeframe:

**1. The Department of Correction (DOC) used funds to retain inmate custody and security positions (1,327.35 positions in November 2010 and 425.22 positions in February 2011). 2. The Office of State Budget and Management (OSBM) used GSF to continue development of the statewide Integrated Budget and Management System (IBIS). The Prime Contractor exited the project and OSBM took over management and implementation of the project with 3 positions funded from GSF. Also, the Office of Economic Recovery and Investment (OERI) was funded to continue to provide oversight of ARRA funds. OSBM internal auditors continued to be funded to conduct compliance and internal control assessments for programs receiving ARRA funds.**

Estimate the total amount of Government Services funds that the State has drawn down on behalf of its subrecipients, from October 1, 2010 to September 30, 2011, under the following categories:

Elementary and secondary education (excluding construction, modernization, renovation, or repair of public school facilities):	<b>\$0.00</b>
Construction, modernization, renovation, or repair of public school facilities:	<b>\$0.00</b>
Modernization, renovation, or repair of public IHE facilities:	<b>\$0.00</b>
Public IHEs (excluding modernization, renovation, or	<b>\$0.00</b>

Public safety:	\$18,454,961.00
Public assistance:	\$0.00
Transportation:	\$0.00
Other:	\$2,836,879.99
Total:	\$21,291,840.99

### III.A. & B. Tuition and Fees

Describe any actions taken by the State to limit increases in tuition and fees imposed by public IHEs for in-State students:

Entry from previous timeframe:

The University of North Carolina: The UNC Board of Governors' tuition plan provides guidance to the campuses during the tuition and fees process. One of the requirements is that combined tuition and fee rates for resident undergraduates remain within the bottom quarter of each campus' public peers, as approved by the Board of Governors. It is proposed that the maximum rate of annual increase for campus-initiated tuition and general fees for undergraduate resident students be 6.5%. Fees required for debt service are in addition to this maximum percentage increase, but funds required to operate facilities are included in the maximum. While tuition and fee charges are necessary as a secondary source of funding, the General Assembly has the principal responsibility for funding the University. For years in which the General Assembly is able to provide sufficient increased revenues, the need for increases in tuition should not be as great as in years when the General Assembly is not able to provide these revenues. For any year in which the General Assembly provides a specific campus a recurring increase in operating appropriations/FTE that is in excess of 6%, the maximum allowed campus-based percentage tuition increase for that campus in the subsequent year will be reduced by the percentage increase in operating appropriations above 6%. For example, if the General Assembly provides a recurring increase of 7% in operating appropriations (1 % above 6%) for a particular UNC institution, the proposed campus-based tuition increase in the subsequent year could be no more than 5.5% (1 % below 6.5%). In a FY 2010-11 comparison of tuition and fee data for our UNC campuses in relation to their approved peers, it was determined that all of our campus' combined tuition and fees were within the bottom quarter in relation to their public peers. Ten of the sixteen campuses had the lowest combined tuition and fees in relation to their public peers; an additional five campuses were the second lowest; and one campus was the third lowest. All of the campuses are compared to public peers except for the UNC School of the Arts. Its peers are private institutions. The results confirm adherence to the Board's policy.

North Carolina Community College System: The use of these funds has helped support a number of IHE positions. Absent these funds, either those positions would have been cut, significantly impacting the institutions' ability to provide a quality education to students or higher tuition increases would have been required to support the positions. Resident tuition and fees for North Carolina community colleges remains among the lowest in the nation.

Please update for the new timeframe:

For each 2- or 4-year public IHE, please provide the tuition and mandatory fee amounts for in-State students for school years 2008-2009, 2009-2010, and 2010-2011:

Data should be provided for all four-year and two-year public IHEs. Private IHEs should not be included.

				<b>Avg Annual</b>

#### IV. Tax Increases Averted

Estimate the degree to which State tax increases were averted because of the availability of SFSF funds.

Entry from previous timeframe:

**Seventy-five percent of state funds are spent on education and Medicaid services. Without the SFSF funds, the following additional actions would have to been taken in order to close our budget gap. 1. Class size increase of 2 students in all k-12 classrooms. 2. Elimination of 1,000 faculty and staff positions from university and community college systems. 3. Medicaid provider rate reduction of 3% which would severely limit access for crucial health care services.**

Please update for the new timeframe:

#### V. Jobs Saved or Created

In its quarterly reports submitted under section 1512 of ARRA, each State provided data on, among other things, the number of jobs estimated to have been saved or created as a result of SFSF support. The Department will use the information that has been reported to determine the number of jobs that have been saved or created. For the purposes of the Initial Annual Report, the State is not required to provide any additional information on the number of jobs estimated to have been saved or created.

Jobs Reported Saved or Created in the First APR:

	<b>Reported Jobs for 02/17/09 - 09/30/09</b>	<b>Reported Jobs for 10/01/09 - 12/31/09</b>	<b>Reported Jobs for 01/01/10 - 03/31/10</b>	<b>Reported Jobs for 04/01/10 - 06/30/10</b>	<b>Reported Jobs for 07/01/10 - 09/30/10</b>
<b>Education Grants</b>	8,916.71	13,213.93	11,672.77	9,448.88	9,281.52
<b>Government Services</b>	10,343.94	1,383.69	92.28	84.02	34.16

Jobs Reported Saved or Created in the Second APR:

	Reported Jobs for 10/01/10 - 12/31/10	Reported Jobs for 01/01/11 - 03/31/11	Reported Jobs for 04/01/11 - 06/30/11	Reported Jobs for 07/01/11 - 09/30/11
<b>Education Grants</b>	10177.36	15127.41	10085.24	6976.16
<b>Government Services</b>	1343.68	439.67	14.29	12.72

**NOTE:** In North Carolina's Quarter 2 report, the State indicated that 1,327.35 Department of Correction jobs for Quarter 4 2010 were inadvertently excluded. As a result, the figures above vary from those submitted to [federalreporting.gov](http://federalreporting.gov) and [recovery.gov](http://recovery.gov).

## VI. Progress in Advancing Education Reform

### A. Reducing inequities in the distribution of highly qualified teachers:

Describe the steps that the State has taken, from October 1, 2010 through September 30, 2011, to reduce inequities in the distribution of highly qualified teachers.

Entry from previous timeframe:

**North Carolina's Equity Plan for the Distribution of Highly Qualified Teachers: Update- May 2009 through September 2010** North Carolina is committed to ensuring that every public school student will graduate from high school, globally competitive for work and postsecondary education and prepared for life in the 21st Century. Because of the critical role of teachers in actualizing this commitment, North Carolina is also committed to ensuring that every child has competent, caring, and qualified teachers. In an effort to recruit and retain quality teachers, North Carolina has implemented many initiatives, including scholarships for prospective teachers that are paid back through working in the public schools, revising licensure policies to eliminate barriers and facilitate the licensing of teachers from other states, creating accelerated alternate routes to teaching, providing a three-year induction program for new teachers, providing salary incentives for teachers who earn National Board Certification and/or master's degrees, and assessing teacher working conditions. North Carolina continues to expand its efforts toward the equitable distribution of highly qualified teachers and principals. The following initiatives have been introduced or accelerated between May of 2009 and December of 2010. (1.) Increased Accountability for the Title II, Part A, Improving Teacher Quality Grant The North Carolina Department of Public Instruction (NCDPI) developed a Highly Qualified Teacher (HQT) Improvement Plan for required submission from local education agencies (LEAs) in receipt of Title II, Part A, improving Teacher Quality funds who have not had 100% of their teachers deemed highly qualified in the two last consecutive years. The plan requires the LEAs to develop a more comprehensive approach to ensuring each teacher becomes highly qualified in the most expeditious manner. The agency also developed an HQT Financial Accountability Agreement for LEAs who had neither satisfied the 100% HQT requirement, nor achieved met Adequate Yearly Progress in any of the past three consecutive years. In addition to addressing the data deficiencies, the HQT Financial Agreement requires LEAs to reallocate its use of funds to specific areas of need. This new level of accountability will produce a larger concentration of highly qualified teachers across the state. (2.) Performance-Based Teacher and Principal Evaluation As of the 2010-2011 school year, the new North Carolina teacher and principal evaluation processes was fully implemented statewide, with student achievement growth data used as a significant component in a balanced evaluation system. The use of the aligned evaluations based on the revised North Carolina Professional Teaching Standards will provide improved evidence of teacher and principal effectiveness and inform decisions about ensuring the most capable educators are distributed equitably to the students and schools most

in need. (3.) New Mentor Standards The SBE approved new mentor standards and new Beginning Teacher Support Program standards which align with the new teacher and principal evaluation and instrument. These new standards will provide a strong opportunity for capacity building across the state for both stakeholder groups. (4.) Performance-Based Incentives Through the new teacher and principal evaluation system and the local flexibility provided by the Race to the Top Grant, opportunities for teachers and principals to earn incentives based on student performance increases significantly. These incentives will help recruit and retain effective teachers and principals in rural and urban districts that traditionally have difficulty in this area. (5.) Regional Leadership Academies At the onset of the 2010-2011 school year, NC DPI, in conjunction with other educational partners, began a leadership academy for aspiring principals who have committed to serve in the low-performing and high-need schools in the rural northeast region of the state. Two more similar academies have been approved by the North Carolina State Board of Education (SBE) to begin in the 2011-2012 school year. (6.) Strategic Staffing Initiatives – Completed by August 2014 • Expand teacher recruitment and licensure programs by August 2014. Based on compelling data regarding the program’s effectiveness, the SBE approved the development of a plan to expand the number of Teach for America participants to work in low-performing schools. In addition, the SBE approved the establishment of the “NC Teacher Corp,” a teacher recruitment and training program based on the Teach for America model which will prepare selected North Carolina college graduates to teach in low-performing schools not already served by Teach for America. Furthermore, the SBE has called for the development of a comprehensive three-year induction program specifically designed to support beginning teachers who work in low-achieving schools. • Provide effective teachers via virtual and blended courses North Carolina Virtual Public Schools has begun the process to expand the availability and use of virtual courses in mathematics and science in low-performing schools and other schools in which curriculum offerings are limited and qualified teachers are unavailable locally. (7.) Professional Development-ongoing through 2014 As requested by the SBE, NCDPI has established a system to create, train, and support a cadre of teacher and principal leaders in professional development to build capacity for sustainable professional development statewide. Through available online workshops, webinars, virtual courses and other electronic media, teachers from across the entire state will have access to quality professional development. (8.) Expansion of Teacher Preparation Programs In conjunction with the University of North Carolina General Administration, private college and universities, and Teach for America, the SBE plans to expand the number of available teacher education programs for both alternative and traditional licensure across the state. The partnership with the teacher education programs will also provide for the more recruitment for teachers in the high-need areas of math, science, middle grades, and Special Education. (9.) Teacher and Administrator Preparation Programs Revised higher education teacher and administrator education programs will align with National Common Core Standards. As a result, all teachers and principals will have the opportunity to experience the same rich curriculum and be better prepared for challenges in school across the state. (10.) Expansion of the More at Four Program- Ongoing According to a study completed by the Frank Porter Graham Child Development Institute in November 2010, More at Four played a significant role in closing the achievement gap between economically-disadvantaged and middle-class students. Early intervention is critically important for ongoing improvement in this endeavor. (11.) Technology Integration NCDPI is leading the execution of the SBE approved School Connectivity Implementation and Operating Plan, a three-year deployment approved by the State Board of Education in 2007 to connect all local school districts into a statewide network for equitable broadband connectivity to all schools and classrooms. This infrastructure is critical to maximize the impact of available technology. As of May 2009, all 115 school districts are connected to the NC Research and Education Network. School districts have received more than \$63 million in federal e-

**Rate funds. A total of \$34 million in technology funding was distributed to North Carolina school in fiscal year 2010 (\$24 million in e-Rate funds and \$10 million from the General Assembly). There were 100 On-site Network Consultancy engagements in fiscal year 2010. Fifteen districts are participating in the UNC School of Government Certified Education Chief Technology Officer program. (12.) Microsoft IT Academy Thanks to a three-year contract between the Department of Public Instruction and Microsoft, students and teachers in more than half of the state's school districts are currently using software and taking courses through the Microsoft IT Academy Program for free. This contract was paid mostly with Microsoft settlement funds provided to North Carolina. In August 2011, North Carolina will become the first state in the country to offer the program in high schools statewide. The Microsoft Academy provides equal access to participating students across the state. (13.) Expansion of the Turnaround Support for Lowest-Achieving Schools North Carolina has targeted the schools for turnaround that are in the lowest 5 percent based on student achievement, high schools with graduation rates below 60 percent, and local school districts with aggregate performance composites of less than 65 percent. Schools and districts that have been involved in transformation and turn around activities over the past four years have shown significant improvements and have built internal capacity to continue the pattern of improvement even after NCDPI staff have ended their on-the-ground commitment with the schools or districts. (14.) Science, Technology, Engineering and Mathematics (STEM) Thematic Schools The SBE has requested the development of four STEM anchor schools, each focused on a major area relevant to North Carolina economic development by August 2011. The anchor schools will be centers for professional development, curriculum development, technology use and innovation to impact networks of STEM schools throughout North Carolina (ongoing through August 2014).**

Please update for the new timeframe:

**North Carolina is committed to ensuring that every public school student will graduate from high school career and college ready, globally competitive for work and postsecondary education, and prepared for life in the 21st Century. This commitment requires that every child has competent, caring, and qualified teachers. In an effort to recruit and retain quality teachers, North Carolina has implemented or maintained many initiatives, including providing scholarships for prospective teachers that are paid back through working in the public schools, revising licensure policies to eliminate barriers to the licensing of teachers from other states, and creating accelerated alternate routes to teaching. Other relevant endeavors include a three-year induction program for new teachers, salary incentives for teachers who earn National Board Certification and/or master's degrees, and the statewide assessment of teacher working conditions. North Carolina continues to expand its efforts toward the equitable distribution of highly qualified teachers and principals. The following initiatives have been introduced, maintained, or accelerated between October 2010 and September of 2011: 1. Increased Accountability for the Title II, Part A, Improving Teacher Quality Grant The North Carolina Department of Public Instruction (NCDPI) continues to collect and monitor the Highly Qualified Teacher (HQT) Improvement Plan required from local education agencies (LEAs) in receipt of Title II, Part A, improving Teacher Quality funds who have not had 100% of their teachers deemed highly qualified in the two last consecutive years. The plan requires the LEAs to develop a more comprehensive approach to ensuring each teacher becomes highly qualified in the most expeditious manner. The agency also employs the HQT Financial Accountability Agreement for LEAs who had neither satisfied the 100% HQT requirement, nor met Adequate Yearly Progress in any of the past three consecutive years. The HQT Financial Agreement requires LEAs to reallocate their funds to specific areas of need. This new level of accountability will produce a larger concentration of highly qualified teachers across the state. 2. Regional Leadership Academies North Carolina has three regional leadership academies that provide comprehensive training to LEA-selected teacher leaders aspire to become principals. Teachers enrolled in these programs commit to serving as principals in low-performing and high-need**

schools, in either rural or urban settings. The design and implementation of the academies is a joint effort among the LEAs, Institutes of Higher Learning, and support organizations like the North Carolina Center for the Advancement of Teaching.

**3. Performance-Based Teacher and Principal Evaluation** The North Carolina Educator Evaluation System is implemented statewide and allows NCDPI to report on the effectiveness of teachers and administrators across the state. Beginning in 2011 – 2012, a new sixth standard for teachers and eighth standard for administrators will be added to the system to evaluate the extent to which teachers and administrators affect student growth.

**4. Performance-Based Incentives** A number of school districts are using the funding provided by the Race to the Top Grant to create opportunities for teachers and principals to earn incentives based on their performance. These incentives will help recruit and retain effective teachers and principals in rural and urban districts that traditionally have difficulty in this area. The State is using Race to the Top funding to pilot a performance-based bonus program for staff members in the 118 lowest-achieving schools in the State. During the 2010 – 2011 and 2011 – 2012 school years, staff members are eligible for bonuses if the school makes higher than expected growth. In 2012 – 2013 and 2013 – 2014, the bonuses will shift to the classroom-level and become based on student growth in specific courses and content areas taught by individual teachers.

**5. Strategic Staffing Initiatives** Expand teacher recruitment and licensure programs:

- NCDPI is funding Teach for America to significantly expand the number of TFA teachers working in low-performing schools in North Carolina.
- NCDPI is creating a teacher recruitment and training program based on the Teach for America model which will prepare selected North Carolina college graduates to teach in low-performing schools not already served by Teach for America. The first cohort of the NC Teacher Corps will begin in 2012-2013.
- NCDPI is also funding a comprehensive three-year induction program specifically designed to support beginning teachers who work in low-achieving schools. Provide effective teachers via virtual and blended courses:
- The North Carolina Virtual Public School is developing eight new STEM (Science, Technology, Engineering and Math) courses that will expand the availability of STEM education through a blended teaching model using both on-line and face-to-face teachers.

**6. Professional Development** NCDPI is deploying a professional development system to create, train, and support a cadre of teacher and principal leaders in professional development in each school district to build capacity for sustainable professional development statewide. Through available online workshops, webinars, virtual courses and other electronic media, teachers from across the entire state have equitable access to quality professional development.

**7. Expansion of Teacher Preparation Programs (ongoing)** In conjunction with the University of North Carolina General Administration, private college and universities, and Teach for America, the NC State Board of Education plans to expand the number of available teacher education programs for both alternative and traditional licensure across the state. The partnership with the teacher education programs will also provide for the more recruitment for teachers in the high-need areas of math, science, middle grades, and Special Education.

**8. Teacher and Administrator Preparation Programs (ongoing)** Revised higher education teacher and administrator education programs will align with National Common Core Standards. As a result, all teachers and principals will have the opportunity to experience the same rich curriculum and be better prepared to facilitate good instruction the school and classroom level.

**9. Technology Integration** The School Connectivity Program is the culmination of several years of vision surrounding the 21st century classroom, and developing a North Carolina workforce poised to meet the challenge of a global economy. The North Carolina Department of Public Education is proud to be the sponsor of this collaborative effort. Through a partnership between MCNC, Friday Institute, ITS and DPI the North Carolina Research Education Network (NCREN) has been extended to the K-12 community of schools. All districts in North Carolina now have a high speed direct connection to this robust education networking infrastructure. Recurring funding has been allocated from the General Assembly to support this effort. These funds shall be used for broadband access, equipment, and support services that create, improve, and sustain equity of access for instructional opportunities for public school students and educators.

**10. Microsoft IT Academy** In August, 2011 North Carolina Public Schools became the first state education agency in the country to enter into an agreement with Microsoft to pilot the Microsoft IT Academy (MSITA), which provides high school students with

real-world technology skills they need to be successful in their college and/or career. MSITA offers statewide access to provide students, teachers, and staff members an opportunity to earn industry certifications. North Carolina is the largest IT Academy in the world. 11. Expansion of the Turnaround Support for Lowest-Achieving Schools North Carolina has targeted the lowest-achieving schools and districts in the state for intensive support from NCDPI's District and School Transformation (DST) office. Schools and districts that have been served by DST over the past five years have shown significant improvements and have built internal capacity to continue the pattern of improvement even after NCDPI staff have ended their on-the-ground commitment with the schools or districts. 12. Science, Technology, Engineering and Mathematics (STEM) Thematic Schools NCDPI is partnering with the NC New Schools Project to implement four STEM anchor schools and 16 STEM affinity network schools. Each school is focused on a major area relevant to North Carolina economic development. The STEM anchor schools will become centers for professional development, curriculum development, technology use and innovation to impact networks of STEM schools throughout North Carolina. Additional resources available to the STEM schools provide new professional development activities to build the capacity of the staff to meet the needs of the students.
